

14

Intro

Verse 1

You don't live your dreams cause you're too busy livin in your fears
Evry pimple hates you
Evry squad's talkin 'bout you
You don't live your life cause you're too busy drowning in your tears

Oh your phone's overwhelming you in your big ole head
Hormones ragin in you
Body's changin n' failin you
Oh everythin is keepin you in your thick ole bed

PreChorus 1

Nobody understands
What you're going thru
Especially your parents and your teachers
They're so old they have got no f*ckin/freakin clue
What to do with you

(What the hell to do with you)

Chorus 1

You're 14
The world is big n' mean
Damn you're just 14
Floating in a teenage dream

You're only 14
Enjoy being a teen
Soon you'll be 18
So today just enjoy 14

Verse 2

You should trust me you're the luckiest person on the planet
Sun is shining bright on you
And life is just dawning for you
We all did the same thing at 14 took the sun for granted

Oh one day when you're older and it's way way too late
Your kids'll sprout the same way you grew
Then your grandkids'll laugh at you too
Oh then you'll realize way too late 14 was way too great

PreChorus 2

Nobody understands
What you're going thru
Especially your parents and your teachers
They're so old they have got no f*ckin/freakin clue
What to do with you

(What the hell to do with you)

Chorus 2

We all go through the same damn thing
You will get through it
Just like we all did
And one day you'll miss the time when
