

Above The Clouds

Verse 1

A safe spot waits for you
The secret hiding place exists
When you've got a touch of blue
Please remember

Some days are bad
Some nights are hard
Sometimes you're sad
But remember that

Chorus 1

Hot or cold
Day or night
Above the clouds
Sun always shines bright

This never changes
No matter how loud the rain shouts
No matter how bad it gets
It's always sunny above the clouds

It's always sunny above the clouds

Verse 2

The sun's power, it never ends
It's carefree and divine
The rays always cleanse
So please remember

Some days are bad
Some nights are hard
Sometimes you're sad
But remember that

Chorus 2

Hot or cold
Day or night
Above the clouds
Sun always shines bright

This never changes
No matter how loud the rain shouts
No matter how bad it gets
It's always sunny above the clouds

It's always sunny above the clouds

Bridge

Below the clouds, there's pain, so much pain
But above the clouds, there is no rain

Chorus 3

Hot or cold
Day or night
Above the clouds
Sun always shines bright, so bright

This never changes
No matter how loud the rain shouts
No matter how bad it gets, no matter
It's always sunny above the clouds

It's always sunny above the clouds

Outro Chorus

This never changes
No matter how loud the rain shouts
No matter how bad it gets
It's always sunny above the clouds

It's always sunny
It always stays sunny
It's always sunny
Above the clouds
Yeah
