

Another Surgery

Intro

Verse 1

I'm not scared
My dad's days were heavier than mine
I learned a lot by watching my hero

Too many hours at work but he found time to love n' trust
There was only one thing that could ever stop him it was us

Verse 2

I miss my dad
My dad's hourglass ran outta time
I hated watchin him hurt n' weak

Now he's past the clouds in the arms of an angel pain free
I'm so happy for him he deserves that love on James street

PreChorus 1

Alone in this cold room
I'll fall asleep smiling
Cuz every time I visit
We spend time catching up
He reminds me life doesn't suck
And whispers words of love
So my surgery's not so tough

Chorus 1

Another surgery
Another chance
To see my dad
So another surgery
Is okay with me

Another surgery
Another chance
To be with my dad
So another surgery
Sounds great to me

Verse 3

I remember
A time when my skin was free of scars
Could've been anything I wanted

Now no idea what life will bring me next so chin down
Til it's time for another surgery then skin in gown

PreChorus 2

Alone in this cold room
I'll fall asleep smiling
Cuz every time I visit
We spend time catching up
He reminds me life doesn't suck
And whispers words of love
So my surgery's not so tough

Chorus 2

Another surgery
Another chance
To see my dad
So another surgery
Is okay with me

Another surgery
Another chance
To be with my dad
So another surgery
Sounds great to me

Bridge

There will come a day
When I'll never have surgery again
But that'll probably be because I'm buried
