

Chnage

Verse 1

Don't you dare hate me, love made me crazy
Last night things, things were kinda hazy

I can't sit still I'm sorry baby
Not the kind a guy to drive aroun' Miss Daisy

Verse 2

There was a girl taught me how to be a man
Left me one day said I wouldn't understand

She made her getaway taught me how to make mine
Now I do stuff like that, do it all the time

Prechorus 1

Embers threaten to start a fire
Don't cry for me I'm a frequent flier
World owes me nothing I'm a damn liar

Chorus 1

Every time anyone thinks
Thinks they know me I change
The older I get
I got no regrets
I never forget
To change

Change is good
Change is cool
Change is my look
Don't be a fool
There's only one rule
If you could, you should

You gotta change

Verse 3

Every Friday night, I feel oh so clever
But the next day, I never remember

I can't sit still I'm sorry baby
Brands fall out of favor but art is forever

Verse 4

Maybe tonight I'll meet a match who's just as fast
Maybe a lady who won't take my crap

She'll bump me in line she'll think we're gonna last
But she'll think twice, when I keep on my mask

Prechorus 2

Embers threaten to start a fire
Don't cry for me I'm a frequent flier
World owes me nothing I'm a damn liar

Chorus 2

Every time anyone thinks
Thinks they know me I change
The older I get
I got no regrets
I never forget
To change

Change is good
Change is cool
Change is my look
Don't be a fool
There's only one rule
If you could, you should
You gotta change

Bridge

It can happen to you...

Chorus 3

You know,
Every time anyone thinks
Thinks they know me I just change
The older I get
I got no regrets
I never forget
To change

Change is good
Change is cool
Change is my look
Don't be a fool
There's only one rule
If you could, you should
You gotta Change
