

# **Christmas Just DOESN'T Work Out For me**

## **Intro**

## **Verse 1**

I've hung all the lights, wrapped all the gifts  
Sung all the carols, and decked the halls  
But in my heart, there's an empty space  
'Cause every year I've waited  
For the magic that never came

## **PreChorus 1**

The snow falls tonight and I shiver lost in the cold  
All those Christmas stories they tell have lost their hold

## **Chorus 1**

I tried so hard, but it's not meant to be  
The joy I seek, is always out of reach  
Christmas just doesn't  
Christmas just doesn't  
Christmas just doesn't work out for me

## **Verse 2**

I light the fire, but it's just not warm  
I want to believe, like I did before  
I try to smile, I play the part  
But time can't heal what winter stole  
And I can't warm this aching heart

## **PreChorus 2**

The snow falls tonight and I shiver lost in the cold  
All those Christmas stories they tell have lost their hold

## **Chorus 2**

I tried so hard, but it's not meant to be  
The joy I seek, is always out of reach  
Christmas just doesn't  
Christmas just doesn't  
Christmas just doesn't work out for me

### **Solo**

I see the stars but they've lost their shine  
No matter how hard I try they're just not mine

(No, no, no)

Maybe it's me, maybe it's just time  
To leave this myth behind

### **Chorus 3**

I tried so hard, but it's just not meant to be  
The joy I seek, is always out of reach

### **Chorus 4**

Christmas just doesn't  
Christmas just doesn't  
Christmas just doesn't work out for me

This Christmas thing  
It just doesn't work out for me

What can I say?  
I'm sorry
