

# Comets

## Intro Chorus 1

Love is forever  
And comets fade away  
Hundreds of possessed  
Close in on their prey

## Verse 1 Rap

When you're young  
You fly too close to the sun  
You're always on the run  
But every day is fun  
When you're young  
When you're young

When you're young  
Your eyes are open  
You think you can see  
What's coming  
But silly as it seems  
Life's a circus of extremes

When you're young  
When you're young  
Every Night is meant for loving  
When you're young

When you're young

## Chorus 2

Love is forever  
The young can ride the wave  
Only love is forever  
Cuz' comets fade away

## **Verse 2 Rap**

When you're young  
Sometimes you're trapped in sadness  
Til friends get you laughin'  
But waves can't help crashin'  
When you're young  
When you're young

When you're young  
Your heart is open  
You think you're in fashion  
You're not you  
Can't hold in your passion  
Too much enthusiasm

When you're young  
When you're young  
Every Night is meant for loving  
When you're young

## **Prechorus 1**

The young see things  
Older people don't  
But fun's not always real  
Nor is everything you feel  
It's not

## **Full Chorus 3**

Love is forever  
And comets fade away  
Hundreds of possessed  
Close in on their prey

Love is forever  
The young can ride the wave  
Only love is forever  
Cuz' comets fade away

## **Bridge**

### **Full Chorus 4**

Love is forever  
And comets fade away  
Hundreds of possessed  
Close in on their prey

Love is forever  
The young can ride the wave  
Only love is forever  
Cuz' comets fade away
