

I used to be FUN Lyrics

Intro

Verse 1

I used to close down every bar
Wake up with numbers on my arm
Shotgun beers on the roof of my Jeep
Now I'm scraping goldfish outta my seats
And I'm dreaming of more than four hours of sleep

PreChorus 1

Still got the devil in my bones
Now my joints creak louder than my headphones

Chorus 1

I used to be wild
I used to be young
First one in last one done
Oh man, I used to be fun

I used to be loud
Ran straight into the sun
I ain't sayin' I'm done
But man I used to be fun

Verse 2

My jeans got tight in odd places
The kids packed up and moved on out
I miss when the messes didn't last past the night
Now every room echoes and it doesn't feel right
Sometimes the silence cuts more than the fight

PreChorus 2

Yeah I still got the devil in my bones
But now it takes longer to rise up off the throne

Chorus 2

I used to be wild
I used to be young
First one in last one done
Oh man, I used to be fun

I used to be loud
Ran straight into the sun
I ain't sayin' I'm done
But man I used to be fun

Bridge

Maybe fun just looks different now
When the stars line up I remember how
I sing out loud like I'm still the one
Dance in the kitchen like I'm twenty-one
And just for a moment, I am still fun

Chorus 3

I used to be wild
I used to be young
First one in last one done
Oh man, I used to be fun

I used to be loud
Ran straight into the sun
I ain't sayin' I'm done
But man, I used to be fun

So much fun

Outro
