

I wish

Intro

Verse 1

I want more than I have
But the problem is
I want more than I can ever have

I think about what I can't have
But the problem is
I really want what I can't have

PreChorus 1

I stay on the road
Avoid the falling rocks
But like a drop in the ocean
I'm trapped in a wave of emotion

Chorus 1

I wish I was happy
I wish I was free
I wish I was happy
I wish I wasn't me

I always wish for more for me
I wish I was happy
I wish for a genie
To wish I wasn't me

Verse 2

This is just who I am
But I take it too far
On the edge of what I am

I think about how small I am
But I take it too far
I really want more than I am

PreChorus 2

I stay on the road
Avoid the falling rocks
But like a drop in the ocean
I'm trapped in a wave of emotion

Chorus 2

I wish I was happy
I wish I was free
I wish I was happy
I wish I wasn't me

I always wish for more for me
I wish I was happy
I wish for a genie
To wish I wasn't me
