

I'd Follow You Into Fire

Verse 1

Our eyes meet
As you walk by across the street
The perfect illusion
We'd make the perfect twosome

I've gotten
Too good at goodbyes
But in your eyes
I feel hypnotized

PreChorus 1

Why won't you look back and play
Or catch the words I throw your way

Chorus 1

When I first noticed you
I could barely move
Forgot my hopeless mood
I'd go anywhere you do
Do anything you choose
I'd follow you into fire

Verse 2

Was a slave to the game
So tired of that pain
Empty when I met you
Wanted the chance to get you

Thought I'd never
See you again
But you came back and then
We hung out 'til 2 am

PreChorus 2

I'm glad you came back to play
And caught the words I threw your way

Chorus 2

When I first noticed you
I could barely move
Forgot my hopeless mood
I'd go anywhere you do
Do anything you choose
I'd follow you into fire

Instrumental

Please don't let me down
Now that you've come back around
Please don't be taken
Or I'd never stop achin

Chorus 3

When I first noticed you
I could barely move
Forgot my hopeless mood
I'd go anywhere you do
Do anything you choose
I'd follow you into fire

Chorus 4

When I first noticed you
I could barely move
Forgot my hopeless mood
I'd go anywhere you do
Do anything you choose
I'd follow you into fire

Outro

I'd do anything for you
Go anyplace you do
I'd follow you anywhere
Even into the fire!
