

Just Say Yes Lyrics

Intro

Woo! One life, one night, let's light it up
No brakes, no doubts, tonight we just say yes

Verse 1

It's Friday night and the sun won't quit
Ray-Bans on and the vibe's legit
The bass so loud got the pavement shaking
Hands to the sky now the city is raging

Tonight's the night so don't hesitate
No rules we're here to celebrate
You want a piece of this energy?
Then baby come ride this wave with me

PreChorus 1

DJ on the mic
Screamin here we go
One shot one chance
To lose control
So come on place your bet
Are you in or out?
Ayy, not yet!

Chorus 1

Just say yes, let the moment begin
No regrets, let the night pull us in
Hands up high, let the whole world spin

Just say yes
Say just yes

Lose yourself, now let your body go wild

No regrets, we're only young for a while
One life, no stress, just the fire in your chest

Just say yes
Say just say yes!

Verse 2

Midnight hits and neon lights shine
You look back and your eyes meet mine
Pulse racing as the whole room's swaying
We come together as the DJ keeps playing

This is the moment we cross the line
Two hearts beating side by side
A spark of electricity
When fantasy meets reality

PreChorus 2

DJ still on the mic
Screamin let's go go
One touch, one dance
No more control
No turning back
Are you in or out?
Ayy, that's a fact!

Chorus 2

Just say yes, let the moment begin
No regrets, let the night pull us in
Hand up high, let the whole world spin

Just say yes
Say just yes

Lose yourself, now let your body go wild
No regrets, we're only young for a while
One life, no stress, just the fire in your chest

Just say yes
Say just say yes!

Bridge

Ooo, everybody feel the moment now
Ooo, every voice is getting louder now
Ooo, the whole world singing out loud now
One more time now
Shout it out loud now

JUST SAY YES!

Chorus 3

Just say yes, let the moment begin
No regrets, let the night pull us in
Hands up high, let the whole world spin

Just say yes
Say just yes!

Lose yourself, now let your body go wild
No regrets, we're only young for a while
One life, no stress, just the fire in your chest

Just say yes
Say just say yes!
