

# Pixels of Light

## Intro

## Verse 1

Maybe fairytales don't happen  
For a guy like me  
The sand in my hourglass slips away  
There's no easy way to say  
I hate my life  
The time I've lost  
What I've become  
The failure I can't outrun

## PreChorus 1

Why can't we stay young forever?

## Chorus 1

There's a place I leave it all behind  
As I step inside  
And I get lost in the pixels of light  
Dancing across the screen  
I wish that was me up there  
I wish that was my life  
I wish the pixels of light  
Would take me away tonight

## Verse 2

I only hear things the way  
I want to hear them  
The sharpest words are always my own  
And most nights I cry alone  
I just never learn  
Make the same mistakes  
Don't know what life means

And most nights echo in silence not dreams

### **PreChorus 2**

Why can't we stay young forever?

### **Chorus 2**

There's a place I leave it all behind  
As I step inside  
And I get lost in the pixels of light  
Dancing across the screen  
I wish that was me up there  
I wish that was my life  
I wish the pixels of light  
Would take me away tonight

### **Bridge**

### **Chorus**

This is always the place I'll leave the world behind  
As I step inside  
And I get lost in the pixels of light  
Dancing across the screen  
I wish that was me up there  
I wish that was my life  
And I wish that all the pixels of light  
Would fly me away tonight
