

Should've Treated U Better Lyrics

Intro

Verse 1

Lost in the storm
We looked for light
Hard to break through
Their grip was tight

The truth was
That change followed us

PreChorus 1

It was an honor to know you
Sucks your time was cut short
I still talk to the sky sometimes
Cause I know you sailed through heaven's port

Oooooo

Chorus 1

And nothing makes sense without you
Like a song that's lost its chord
I miss you
Should've treated U better

Called you more, just to say hey
Not let life get in the way
You always gave your all every day
Now I carry your calm in my chest

Verse 2

You always turned
The other cheek

You carried weight
That made you weak
Your story's drawn
But your legacy carries on

PreChorus 2

It was such an honor to know you
Sucks your time was cut short
Yeah I still talk to the sky sometimes
Cause I know you sailed through heaven's port

Chorus 2

And nothing makes sense without you
Like a song that's lost its chord
I miss you man
Should've treated U better

Called you more, just to say hey
Not let life get in the way
You always gave your all every day
And now I carry your calm in my chest

Shoulda treated U better

Bridge

Dude, it sucks what happened to you
You made me wanna be like you
Your story burned, but ended too soon

Verse 3

You had a fire
An easy smile
Always steady
Made life worthwhile

I miss you brother

We'll meet again one day

Chorus 3

Ohh Nothing makes sense without you
Like a song that's lost its chord
I miss you, bud
I should've treated U better

Called you more, just to say hey
Not let life get in the way
You always gave your all every day
I shoulda treated U better
