

SunFLOWER

Intro

Verse 1

Life's just different out here

Worry falls away
And it's okay
To take up space

Let it go (real slow)

Then you can run on run run
As fast as you want
In the sun, the sun, run run
Hang on and have fun, fun fun

PreChorus 1

Like a river of yellow
And an ocean of white
We fit so well together
With a mellow vibe

Chorus 1

Through the rain you shine
Singing yellow day and night
Oh your love burns bright
You never hide
You live your life
Makin everything alright

My pretty little sunflower

Verse 2

Life's just different around you

A sun kissed breeze
Slides across my cheek
You set me free free

And anytime I'm broken
You give me hope
With arms wide open
You're all I need

PreChorus 2

Like a river of yellow
And an ocean of white
We fit so well together
With a mellow vibe

Chorus 2

Through the rain you shine
Singing yellow day and night
Oh your love burns bright
You never hide
You live your life
Makin everything alright

My sunflower

Bridge

You're smilin in the rain
Standin tall through it all

Chorus 3

Through the rain you shine
Singing yellow day and night
Your love burns bright
You never hide

You live your life
Makin everything all alright

My pretty little sunflower
My pretty little sunflower

You're the best part of my day
