

Sweet As Sugar

Intro

I counted down the days
But forgot to make them

Verse 1

I was a bastard and she stayed
She stood tall and prayed
For my senses to grow sharper
Kept faith in what ruined her

PreChorus 1

I felt the filth upon my bones
Frozen breath hardened my soul
Dead ocean, a black hole
She never left me alone

Chorus 1

She's sweet as sugar
Warm as pie
Standing by my side
Aging before my eyes

The brightest part of my life
Gives me the gift of life
She's always warm as pie
And sweet as sugar

Verse 2

A flame danced on the water
Would've never made it without her
Love is complicated

Things that matter always are

PreChorus 2

I felt the filth upon my bones
Frozen breath hardened my soul
Dead ocean, a black hole
She never left me alone

Chorus 2

She's sweet as sugar
Warm as pie
Standing by my side
Aging before my eyes

Solo

You can't just erase the past
Because it won't fit into the present

Chorus 3

She's sweet as sugar
Warm as pie
Standing by my side
Aging before my eyes

The brightest part of my life
Gives me the gift of life
She's always warm as pie
And sweet as sugar

Ending

Every day she dared to live
Never gave up or caved in
She was always better
At solving my problems
Than I was
