

The First 100 Lyrics

Intro

Miss you dad,

My dad would always say
It's the first 100 years are the hardest

Verse 1

You spent your life in a rush chasing the stars
Always lookin for more, never knowin' who you are
But I was raised with simpler dreams
To work hard give hope and believe in the little things

PreChorus 1

I still hear his voice like it was yesterday
He'd say son don't let this world make you lose your way

Chorus 1

And live your life
Make every moment last
Never look back
Work hard and don't forget to laugh
When the sun goes down love's all you'll have
Yeah the first 100 years they're tough
But it gets easier after that

Verse 2

My dad's moved on to a much better place
I see his smile in the sky, up in heaven's grace
Mama's still here like a summer breeze
Whisperin' you won't find rainbows lookin' down at your feet

PreChorus 2

I still hear his voice like it was yesterday
He'd say son don't let this world make you lose your way

Chorus 2

And live your life
Make every moment last
Never look back
Work hard and don't forget to laugh
When the sun goes down love's all you'll have
Yeah the first 100 years they're tough
But it gets easier after that

Bridge

Mmmm
Yeah
Live your life
Yeah

Instrumental

Chorus 3

And live your life
Make every moment last
Never look back
Work hard and don't forget to laugh
When the sun goes down love's all you'll have
Yeah the first 100 years they're tough
But it gets easier

Chorus 4

And live your life
Make every moment last
Never look back
Work hard and don't forget to laugh
When the sun goes down love's all you'll have

Yeah the first 100 years they're tough
But it gets much easier
Yeah it gets easier after that
