

The day I stopped, I won

Intro

I was runnin', never seemed to end
Chasin' shadows around evry bend
Wastin' my soul, a race I couldn't win
Couldn't stop or remember where I'd been

Verse 1

I was runnin' down the highway burnin' up the road
Chasin' every dream never doin' what I'm told

Had the pedal to the metal man I couldn't slow down
But the faster I was movin' the more I was losin' ground

PreChorus 1

One day the phone rang the news hit me hard
He was gone and it tore me apart
Couldn't run from the pain no place to go
Life had broken my heart

Chorus 1

I quit the chase
And left the race
The day I stopped
I won the race
I found peace
And sweet release
Yeah it was over
The day I stopped, I won

I won

Verse 2

Now it's your turn faster you run the more you're gonna get
Dancin' with the devil playin' his twisted games you're spent

And you're searchin' for somethin' but you just don't know what
Tryin' to fill the hole with money but you're stuck

PreChorus 2

One day the phone'll ring the news hit you hard
They're gone it'll tear you apart
Can't run from the pain no place to go
Life has broken your heart

Chorus 2

I quit the chase
And left the race
The day I stopped
I won the race
I found peace
And sweet release
Yeah it was over
The day I stopped, I won

I won

Bridge

Now we're sittin' here, playin' this ol' piano
No more damn runnin, just sleepin til noon
Chasin' no shadows, just howlin' at the moon
We both made it, won't run just can't no

Oh oh

Chorus 3

Yeah we quit the chase (we quit the chase)
And left the race (and left the race)
The day we stopped (the day we stopped)

We won the race (we won the race)
We found peace (we found peace)
And sweet release
Yeah it was over
The day we stopped, we won

We won

Outro

Yeah I stopped runnin', I stopped the fight
Now I'm livin' easy, everything's alright
The day I stopped, I won oh yeah
The day I stopped, I won

I won
