

This Song Is Your Fault

Verse 1

Another city another gig
Not famous but that's ok
Just taking this broken heart
And making it into art

Never expected this tonight
But your eyes found my spotlight
You stood out among the crowd
Triggers like you should not be allowed

Chorus 1

Obeying rules means no fun
Life flies by while I run
How can I create the chance
To have a chat with you?

Dazed there's no doubt
My head's in the clouds
Crowd knocking down the house
They start to shout out loud

This song is your
This song is your fault!

Verse 2

Walls asleep but I go wild
When you look at me and smile
Forgot rejections for a few seconds
Whispered thanks to the heavens

Your smirk so strong
Stirs me all night long
Legs flow like a river

I quiver as your lethal lips deliver

Chorus 2

Obeying rules means no fun
Life flies by while I run
How can I create the chance
To have a chat with you?

Dazed there's no doubt
My head's in the clouds
Crowd knocking down the house
They start to shout out loud

This song is your
This song is your fault!

Bridge

If this, becomes a hit
I'll get, filthy rich
So after, my set
Come on by, and let's, break a sweat

Chorus 3

Obeying rules means no fun
Life flies by while I run
How can I create the chance
To have a chat with you?

Dazed there's no doubt
My head's in the clouds
Crowd knocking down the house
They start to shout out loud

This song is your
This song is your fault!
