

We FAILED until WE didn't

Intro

Verse 1

We started with love
Fun in the sun
Young on the run
We were the lucky ones
Things were easy
And we held on tight
We kept on talkin'
Until we didn'

Verse 2

We lived in fear
So full of hate
Lost in aches
No longer felt safe
Things got bad
And we slept apart
No more anythin'
We just didn'

Prechorus 1

But we refused to give up
We didn't wanna be apart
We climbed up out of our rut

Made a brand new start

Chorus 1

The song of life has both high and low notes
You don't always get it right the first time
But if you don't quit keep trying like we did
You just might make it

We failed until we didn't
We failed until we didn't

Verse 3

Your story's the same
You're fighting too
Askin' questions you
Don't want answers to

You swear you'll never
Taste their kiss again
You're just another couple
In so much trouble

Verse 4

Yeah you're like us
Yeah we've been there too
Runnin' scared
Hopin' your prayers come true

But we wouldn't quit
Kept workin hard
Oh yeah we did it
And you can too

Prechorus 2

But we refused to give up
We didn't wanna be apart
We climbed up out of our rut
Made a brand new start

Chorus 2

The song of life has both high and low notes
You don't always get it right the first time
But if you don't quit keep trying like we did

You just might make it (like we did)
We failed until we didn't (until we didn't)

Bridge

And everybody likes to be tucked in
So keep tryin' (never quit)
And everybody likes a little win
(So Keep on tryin, never quit)

Chorus 3

The song of life has both high and low notes
You don't always get it right the first time
But if you don't quit keep trying trying like we did

You just might make it (like we did)
Cuz we too failed until we didn't (until we didn't)

We failed until we didn't

End

I mean I guess it's cliché but they say quitters never win, right?
And it felt like we were failing so many times
Time and time again
But we just kept trying and trying and eventually we didn't
