

# **(We've All Got) Blind Spots**

## **Verse 1**

Sometimes we stay in bad situations  
Because we think they're worth it  
They seem so perfect

No one knows the truth because that's not the story you tell  
But I know you're trapped in hell

## **PreChorus 1**

I know all the signs  
Been there myself avoiding land mines  
It hurts, hurts, so much

## **PreChorus 2**

The mirror won't hide the pain  
You've been holding your breath these last few years

## **PreChorus 3**

Drowning in your own blue tears  
Your own tears, your own blue tears

## **Chorus 1**

We've all got blind spots  
We've all got something we refuse to see  
It won't let you leave  
Won't let you breathe  
Won't let you speak  
Won't let you sleep  
It's dangerous and deep  
We've all got blind spots  
Open your eyes and see  
You've lost track of reality!

## **Verse 2**

Every choice you make makes you  
You reach this spot but never past it  
Not sure how you lasted

Wake up every morning trying to escape your mistakes  
At night fall asleep so afraid

## **PreChorus 4**

You long to break up  
Pain hits you as you wake up  
Feel like, a speck of dust, drifting thru, darkness

## **PreChorus 5**

The mirror won't hide the pain  
You've been holding your breath these last few years

## **PreChorus 6**

Drowning in your own blue tears  
Your own tears, your own blue tears

## **Chorus 2**

We've all got blind spots  
We've all got something we refuse to see  
It won't let you leave  
Won't let you breathe  
Won't let you speak  
Won't let you sleep  
It's dangerous and deep  
We've all got blind spots  
Open your eyes and see  
You've lost track of reality!

## **Instrumental**

### **Chorus 3**

We've all got blind spots  
We've all got something we refuse to see  
They won't let you leave  
They won't let you breathe  
They won't let you speak  
They won't let you sleep  
They're dangerous and deep  
Those blind spots

### **Outro**

I can't let it happen to you  
Cuz' it happened to me
