

You have YOU Lyrics

Intro

Verse 1

Every day's the same
When you push the edge, you find the edge
Through every twist and turn
You don't slow down you can't slow down
You refuse to be, nice to yourself oh nice to yourself
You forget you're human
Your life is not in ruin

PreChorus 1

When you're sad or alone
Stars will whisper your name
You're the lighthouse in the storm
Shinin' thru the darkest night
With an unwavering light

Chorus 1

You
Always have you
In your corner

You
Always make your
Days warmer

Yeah you
Always have you
In your corner

You
Always have you
You always have you!

Verse 2

Only your shadow
Knows your every move, when you dare to move
You're so damn close to
Your happy ending that famous ending
It's not too late, there's no reason to stop
You're not dead in your gravesite
There's still plenty of daylight

Woo-oo

PreChorus 2

When you're sad or alone
Stars will whisper your name
You're the lighthouse in the storm
Shinin' thru the darkest night
With an unwavering light

Chorus 2

You
Always have you
In your corner

You
Always make your
Days warmer

Yeah you
Always have you
In your corner

You
Always have you
You always have you!
