

A Ghost

Whether a ghost is real or not, is often debated,
Even if that ghost is of someone related.
Most ghosts are heard, but rarely seen,
Including the friendly ones or ones that make a scene.

For a ghost to be taken seriously,
It will often appear mysteriously.
No explanation is better than reason,
Especially when it is ghost hunting season.

Ghosts have so many names like poltergeist or a spirit,
Apparition, specter, or lost soul, call it what you want but just don't go near it.
The famous Ghost Busters captured Goblins and Ghouls,
They were quite scientific, they're nobody's fool.

So be ready for something or nothing at all,
Since just like the movies, "Who yah gonna call?"
