

Do What You Can

You should do what you can and not what you cannot.

It does not impress others if you fail a lot.

Trials are necessary to learn what we do best,

But, once you discover it, don't waste time on the rest.

Spending your energy on what you cannot do,

Will only bring frustration to others and to you.

Instead, build on what you can do and become the best

And keep it up until you set yourself apart from all the rest.

So often we tell others, "I wish there was more I could do,"

We sell ourselves short of the impact that ensues.

Anything can happen when you do what you can,

And you are blessed because you gave a helping hand.

So, don't muddle through what's impossible for you,

Instead, concentrate on all that you can do.
