

My Piano

My piano is like my best friend,

I trust it with each message I send.

We spend much time together, just my piano and I,

Creating magic from nothing but my mind's eye.

When we perform together on stage under bright lights,

The power of our teamwork is out of sight.

The range of emotion expressed from each stroke,

Ranges from soulful jazz to storytelling Folk.

88 keys, 3 pedals, and nicely carved wood,

This amazing instrument so often misunderstood.

Bringing heartfelt joy to all who hear,

Expressing each note so incredibly clear.

I thank my parents for introducing us so long ago,

Even though my best friend sometimes steals the show.
